Motion Carried

V-plowing Policy

V-plowing is done by the RM of Dufferin to protect yard sites in times of early spring runoff, v-plowing creating an open channel to allow water to flow more freely through it outlet.

The v-plowing is reviewed and approved by council on an annual basis to anticipate the needs for the early spring runoff.

In extraordinary circumstances usually in conjunction with an Emergency Prevention Order, the council and staff work together to respond to the requirement to protect yard sites.
