Watson Arustrom
That Report be received and filed
Carried

Report of Committee on Water Rates.

To the Mayor Council
Town of Carman.

Resurrection: We your Committee appointed to look into the question of water rates beg to report as follows:-

We are of the opinion that the meter is the most equitable and proper system, however, with the limited number of connections which we have at present we hardly think it advisable to go to the expense of installing meters and for the present would suggest a flat rate be struck similar to that hereto attached.
